Merging Technology and Nature
for a Sustainable Future

BIOS

Abstract

Bios World is a unique project that blends technology with a mission to safeguard biodiversity through the use of a purpose-driven meme coin, BIOSW, and a novel metaverse. This whitepaper outlines the project's objectives, the functionality of BIOSW, and our proposed metaverse's innovative features.

Introduction

In the age of cryptocurrency and environmental crises, it's crucial to merge technological advances with the urgent need to protect our planet. Bios World aims to fill this gap by introducing BIOSW, a meme coin with an underlying purpose.

BIOS

BIOS

Meme with a Mission

BIOSW is a cryptocurrency that brings together the fun, viral nature of meme coins with a mission to protect and preserve biodiversity. Unlike traditional meme coins, the value of BIOSW isn't solely tied to its meme status. Instead, it's underpinned by a meaningful cause that directly contributes to the environment's protection.

Our metaverse is an immersive digital environment where BIOSW holders can interact, engage in NFT-based games, and participate in activities that promote and protect biodiversity. This includes an NFT marketplace, where users can trade unique, biodiversity-themed NFTs, and a virtual game where users can 'grow' endangered animal and plant species.

Use Cases

Biosworld Ecosystem Overview

- **NFT Marketplace:** Explore and create value by trading flora and fauna NFTs while supporting biodiversity initiatives and charities.
- **Play-to-Earn:** Transform environmental areas through educational gameplay and earn rewards for your contributions.
- **Vote-to-Earn:** Rate and support environmental projects, promoting biodiversity while earning rewards.
- **Stake-to-Earn:** Contribute to the project's growth and earn rewards by staking tokens in the Biosworld community.
- **Decentralized Crowdfunding:** Participate in funding biodiversity improvement projects and earn rewards within the Biosworld ecosystem.

Role of the Community

The Bios World community is instrumental in driving our mission forward. By buying and using BIOSW, they contribute to biodiversity preservation efforts and raise awareness of the importance of biodiversity.

Use Cases

NFT JUNGLE

Roam through our vibrant NFT marketplace, where you'll discover and create rare treasures of flora and fauna. Each purchase helps preserve biodiversity and supports charitable initiatives. Let's trade, collect, and save the planet together!

PLAY & PROTECT

Get your eco-warrior gears on and join our Play-to-Earn platform. Dive into educational gameplay, revitalize environmental areas, and earn epic rewards while unlocking the secrets of sustainability. It's time to level up and save the world!

VOTE for MOTHER EARTH

Cast your votes, eco-enthusiasts! With our innovative Vote-to-Earn feature, rate environmental projects, from eco-hotels to wildlife sanctuaries. Your voice helps shape a greener future, and the rewards? They'll leave you roaring for more!

CROWDFUND for CHANGE

Ready to make a difference? With our decentralized crowdfunding platform, you can transform areas in need of biodiversity improvement. Contribute to projects, earn rewards, and witness the magical transformation unfold. Together, we'll reshape the world!

Our Team

Flora - Founder
Tech-savvy Treehugger

Our meme-tastic founder is a true connoisseur of code who swapped the concrete jungle for the heart of the rainforest. With a strong Wi-Fi signal and an even stronger love for nature, she comfortably crafts complex algorithms while identifying the calls of rare birds.

Fauna - Co-Founder
Doctor-Techie Championing Biodiversity

She's a medical doctor and tech enthusiast who co-founded Bios World. Her goal is to transform our interaction with biodiversity and safeguard our planet's precious flora and fauna.

Bios Code Army
Tech Warriors of the Wild

The tech team that's traded office desks for forest dens. Living harmoniously with nature, they're the coding champions behind Bios World, turning the whispers of the wilderness into digital dialects.

Tokenomics

Total Supply 100,000,000,000 tokens.

Token Distribution

70% of tokens (70,000,000,000). Public Presale

20% of tokens (20,000,000,000). for Exchanges

5% of tokens (5,000,000,000). Marketing & Development

5% of tokens (5,000,000,000). Charity & Initiatives

No tax and no fees for buying or selling BIOSW.

Liquidity locked for 2 years to ensure stability and trust in the ecosystem.

Contract Renounced
IB Airdrop

8% tax on NFT transactions

3% to the seller

4% distributed among BIOSW holders

1% donated to charity

Token Name: BIOSW

Token Symbol: BIOSW

Token: ERC20

Roadmap

Stage I

Discovery

The first stage involves the pre-sale of BIOSW tokens, building our community, and establishing our online presence.

- Pre-Sale website
- Pre-sale website goes live.
- 10,000 Telegram community.
- Initiate Media/PR activities.
- Launch of social channels.
- Research

BIOS

Stage 2

Protection

The first charitable donation, further community growth, and the full launch of our website.

- First donation to a biodiversity-related cause.
- 30,000 Telegram Community
- Launch of the Ambassador Campaign
- Full website Launch
- First launch on decentralized and centralized exchanges (DEX/CEX).
- Chain Bridge Added
- An airdrop of 500M BIOSW tokens.

An artistic illustration of an underwater scene. In the foreground, a large humpback whale with a dark grey body and white spots on its back is swimming towards the left. Above it, a light blue dolphin with a white underbelly is leaping out of the water. To the left, a sea turtle with a patterned shell is swimming. The background features a vibrant coral reef with various colors like pink, orange, and purple, set against a deep blue ocean.

Stage 3

Restoration

Introduces NFTs, the crowdfunding website, and further donations to biodiversity causes

- Release of biodiversity-themed NFTs
- Crowdfunding website goes live
- Second donation to a biodiversity-related cause.
- Growth to 60,000 BIOSW holders
- 60,000 Telegram Community
- Announcement of partnerships
- Second launch on decentralized and centralized exchanges (DEX/CEX).
- An additional airdrop of 500M BIOSW tokens.

Stage L

Sustainability

Introduces NFTs, the crowdfunding website, and further donations to biodiversity causes

- Launch of the NFT Marketplace
- Launch of the Climate Change Initiative, focusing on flora and fauna
- Recruitment of 50,000 volunteers
- Expansion to 200,000 BIOSW holders
- Announcement of additional partnerships
- Launch of BIOSwap
- Staking goes Live

Stage 5

Education

The final stage of our roadmap includes launching an academy with AI tools, gaming, and reaching significant community milestones.

- Launch of the Bios World Academy, featuring AI tools
 - Launch of BIOS Gaming (Play-to-Earn with a cause)
 - Zoo on Metaverse goes live
 - Allocation of 5% of tokens to charities
 - Expansion to 500,000 BIOSW holders
 - Recruitment of 100,000 volunteers
 - Achieving a 1B Market Cap
 - Introduction of the BIOS Protocol
- Continued.....

Join us : Be a Part of the Change

As Bios World grows, we aim to amplify our message, spreading the urgency of preserving biodiversity far and wide. But we can't do it alone. We need you to join us in our mission to discourage deforestation, promote sustainable economic recovery, and foster a harmonious coexistence with nature.

Disclaimer

Prior to acquiring any BIOSW Tokens, it is crucial to consult your own advisors regarding legal, tax, and any other pertinent aspects in your country of origin, and about the structure and operation of the Bios World platform. This is necessary to ascertain if the purchase of BIOSW Tokens aligns with your risk profile.

The purchase of BIOSW Tokens is accompanied by a degree of risk and could potentially result in a significant loss, or even the complete loss of the principal deposit. It is crucial to carefully assess and understand the risks outlined in this whitepaper, as well as any other unanticipated or unmentioned risks, before purchasing BIOSW Tokens.

This whitepaper does not serve as a prospectus and does not constitute any financial instrument or security offering to the public, nor does it pertain to any collective investment scheme. This whitepaper, the BIOSW Tokens, and their use, possession, and trading do not imply any rights, explicit or implied. BIOSW Tokens do not represent or provide any ownership rights, securities, or equivalent rights, intellectual property rights, or any other form of issuer-related participation.

The information contained in this whitepaper may not be wholly accurate or complete following its publication date, and no assurance can be given that any information provided in connection with this whitepaper will remain wholly accurate after the date of its provision. Crypto assets, such as BIOSW Tokens, are not regulated as financial instruments, and no compensation or refund is available from any regulatory bodies.

Ownership of BIOSW Tokens does not entitle the holder to acquire any interest or rights related to the Issuer. Furthermore, the Issuer is not obligated in any way to return any investment made via this whitepaper.

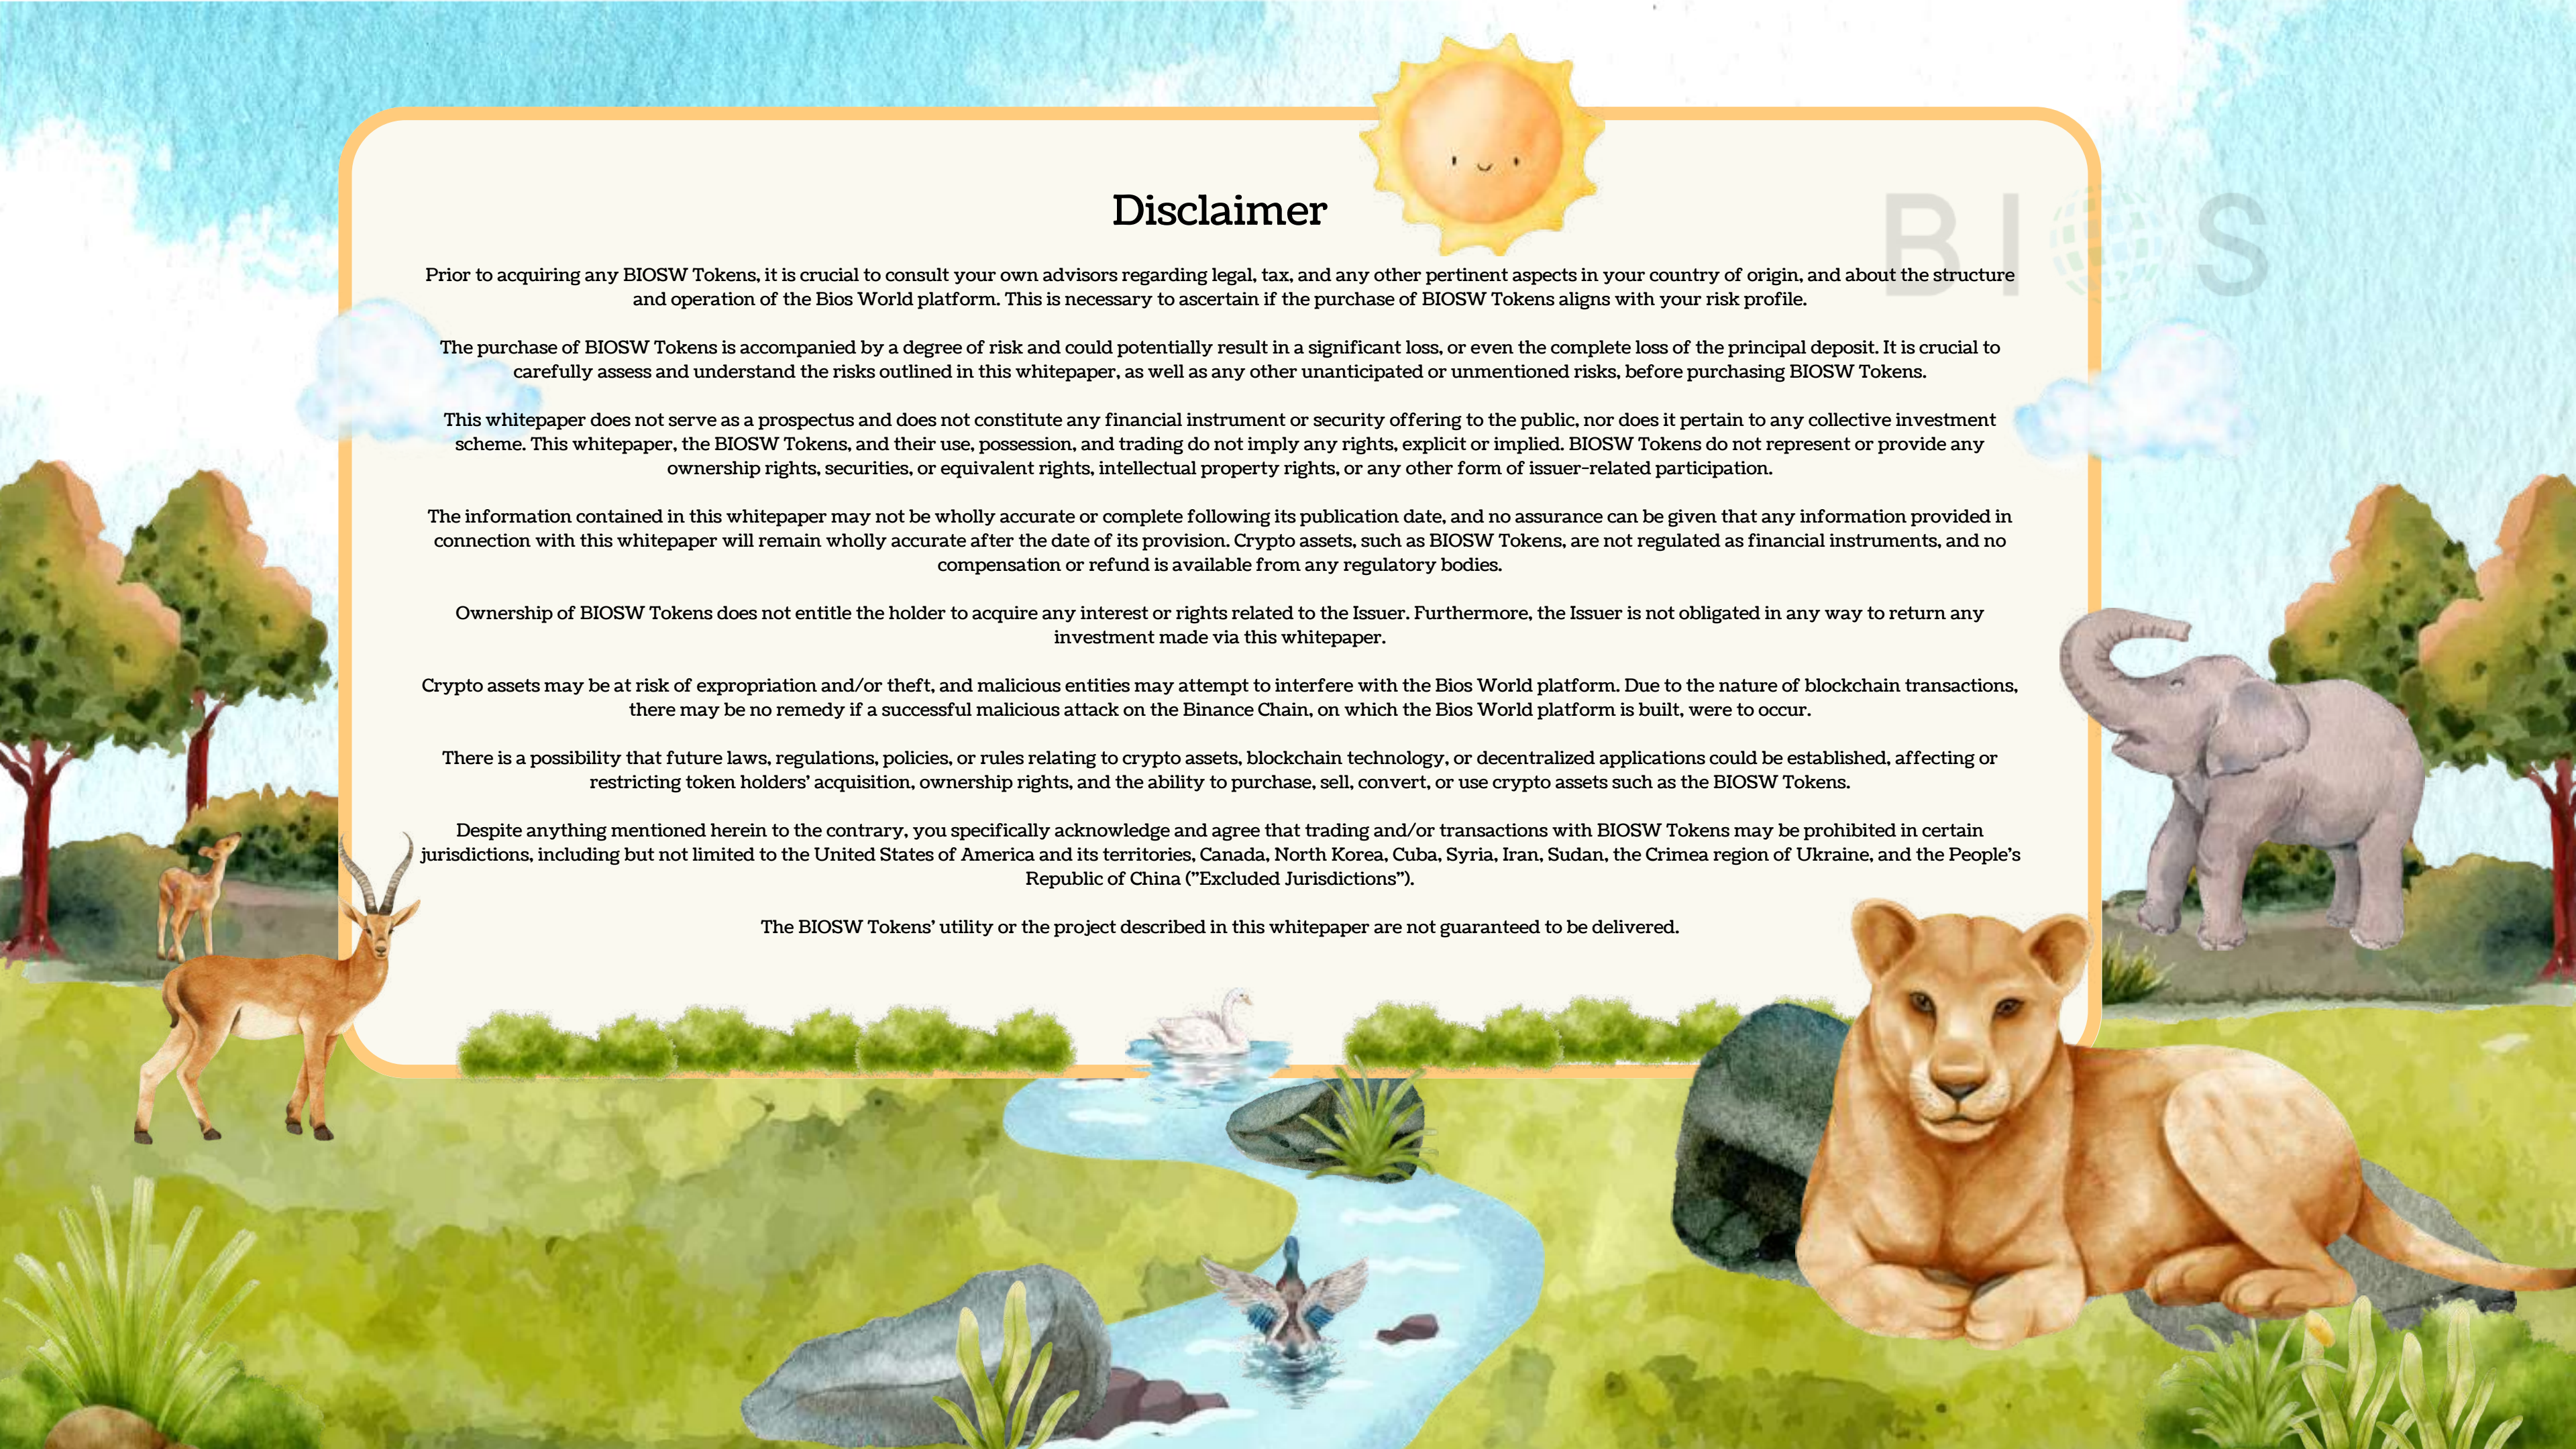

Crypto assets may be at risk of expropriation and/or theft, and malicious entities may attempt to interfere with the Bios World platform. Due to the nature of blockchain transactions, there may be no remedy if a successful malicious attack on the Binance Chain, on which the Bios World platform is built, were to occur.

There is a possibility that future laws, regulations, policies, or rules relating to crypto assets, blockchain technology, or decentralized applications could be established, affecting or restricting token holders' acquisition, ownership rights, and the ability to purchase, sell, convert, or use crypto assets such as the BIOSW Tokens.

Despite anything mentioned herein to the contrary, you specifically acknowledge and agree that trading and/or transactions with BIOSW Tokens may be prohibited in certain jurisdictions, including but not limited to the United States of America and its territories, Canada, North Korea, Cuba, Syria, Iran, Sudan, the Crimea region of Ukraine, and the People's Republic of China ("Excluded Jurisdictions").

The BIOSW Tokens' utility or the project described in this whitepaper are not guaranteed to be delivered.

BIOSW

Risk Disclosure

Here is a non-comprehensive list of primary risks associated with the trading and/or use of BIOSW Tokens that the Company believes are significant. These risk factors should be considered in conjunction with all other information provided in the Whitepaper. We strongly recommend participants to consult with professional advisors, including financial, accounting, legal, tax, and technical experts.

Risk of losing access to BIOSW Tokens: This can occur due to private key loss, custodial error, or participation error. You will need a wallet to acquire, store, and dispose of BIOSW Tokens. It is your responsibility to establish this Wallet with a third-party provider and ensure its security. Loss of the associated private key(s) can result in the loss of your BIOSW Tokens and other cryptocurrencies. Furthermore, any third party that gains access to these private key(s) could potentially misappropriate your BIOSW Tokens. Any wallet errors or malfunctions caused by you or your chosen third-party provider may also result in BIOSW Token loss.

Risk of Hacking and Security Flaws: Denial of service attacks, Sybil attacks, spoofing, smurfing, and virus attacks are potential risks. Such attacks could be perpetrated by hackers or hacker groups and could impact the BIOSW Tokens and any services that the Company may provide.

Risk of Flaws in the Smart Contract, Website, or BIOSW Token Source Code: The Smart Contract, Website, or BIOSW Tokens could unintentionally contain flaws or vulnerabilities, which could prevent users from using or lead to the loss of BIOSW Tokens. Any updates or modifications could inadvertently lead to unwanted or unforeseen impacts on BIOSW Tokens.

Risk of Non-Listing or Low/No Liquidity: Exchanges might be under unclear governmental control, and the Company offers no warranties or representations about exchange service providers. Users, including you, could be exposed to fraud and failure regarding those exchanges. There's no guarantee of an active secondary market for BIOSW Tokens.

Risk of Uninsured Losses. Unlike bank or financial institution accounts, BIOSW Tokens are uninsured unless specifically insured by the user. There is no public insurer for BIOSW Token losses.

Internet Transmission Risks: There are risks associated with the use of BIOSW Tokens, including potential hardware, software, and Internet connection failures. These failures could result in communication disruptions, errors, distortions, or delays when using BIOSW Tokens or the Website.

Risk of Price Fluctuation: The price of BIOSW Tokens can vary significantly, posing a challenge for even seasoned cryptocurrency traders to predict future market behavior. The native cryptocurrencies of the networks on which BIOSW Tokens are deployed are also subject to price fluctuations that can indirectly and directly impact BIOSW Tokens' market value.

Other Risks: You acknowledge and accept inherent risks associated with BIOSW Tokens, including but not limited to risks of money laundering, fraud, criminal exploitation, and other unforeseen risks. If any of these risks are unacceptable to you or beyond your understanding, we advise refraining from acquiring, holding, or using BIOSW Tokens. By agreeing to these terms and conditions and participating in the BIOSW presale, you waive your rights and agree not to hold Bios World accountable. We strongly advise against purchasing any BIOSW Tokens if you are unsure about anything in this Whitepaper or if you are not prepared to lose the money spent on purchasing BIOSW Tokens.
